# INTRODUCTION

## ALL INDENTORS ARE REQUESTED TO READ PARA 11

1. This Catalogue replaces the 1931 Edition, Survey of India Map Catalogue, at least for the duration of the war. The main change is that availability of topographical maps on the 1 inch,  $\frac{1}{2}$ -inch and

$\frac{1}{4}$ -inch scales, is, in this catalogue, shown on index map Plate 7 for the whole of India, whereas, in the former catalogue, this information was given on a page facing each 1-inch=32 mile Index Nos. 30 to 79.

PLATE 7 IS THE LAST PAGE OF THIS CATALOGUE

## HOW TO USE THIS CATALOGUE

2. Study the Plates, Indexes and Appendices and try to identify and state your Geographical or Topographical map requirements according to catalogued numbers or names, and your other map requirements by catalogued name. Para 3 will help you. If you have any real difficulty, or cannot find what you

want in this catalogue, refer to the Director, Map Publication, Survey of India, Dehra Dūn, or, if it is FOREST MAPS or Triangulation and Levelling data in which you are interested, refer to the Director, Geodetic Branch, Survey of India, Dehra Dūn.

See para 11—DON'TS FOR INDENTORS.

## GUIDE TO INDENTORS

3. REFER TO PLATES ETC., AS FOLLOWS FOR:—

TRIANGULATION AND LEVELLING: (Apply to the Director, Geodetic Branch) .. Plates 1 & 2.  
GEOGRAPHICAL MAPS .. Plates 3 & 5.  
TOPOGRAPHICAL MAPS .. { Plate 7 and  
Indexes Nos.  
30 to 79.

Pull out Plate 7 and locate, as nearly as you can, the area of which you require a  $\frac{1}{4}$ -inch,  $\frac{1}{2}$ -inch or 1-inch map. Note the large numbered square in which this falls. Turn to the large scale (1-inch=32 miles) Index bearing the same number and identify exactly the area in which you are interested. Read carefully the notes on this Index, explaining how to

“name” the  $\frac{1}{4}$ -inch,  $\frac{1}{2}$ -inch or 1-inch map you require and turn back to Plate 7, which will tell you whether the required map has been published.

The Alphabetical Index of Provinces, Districts and States, which follows Plate 6, will help you to locate on the Indexes the area or place in which you are interested.

7. **MAP MOUNTING:** For the duration of the war certain map mounting styles have been discontinued. Maps can be mounted on cloth singly or joined together to form a combined map in the following styles :—

- (ii) Mounted on cloth and folded without dissections.
- (iii) Mounted on cloth and folded with dissections.

8. **COVERS:** Folded maps can be put in a cover. The following are the standard types :—

- (b) Thick Paper Cover. Folded topographical maps on this style usually have three folds north and south and four folds east and west, and measure when folded about 8 by 5 inches.

9. **CHARGES FOR MOUNTING AND COVERS:** These vary from time to time with the market price of labour and materials. The office supplying your requirements will quote rates on application.

10. **SUPPLY:** Supply of maps is dependent on stocks being available. Indentors must appreciate that, for the duration of the war, stocks of all maps listed in this Catalogue may not be available for issue.

### 11. DON'TS FOR INDENTORS :

- (i) Don't demand maps except by the correct name or number. Demands such as "a large map of the United Provinces", "maps of the police stations such and such and so and so" cannot be fulfilled without further reference to the indentor and consequent delay and extra work to all involved. Use the Catalogue.
- (ii) Don't insist on "maps in full colours" For the duration of the war, modern topographical maps, which, pre-war, were printed in a number of colours, are now printed in fewer colours and, in most cases, in black for all detail and brown for contours only. Maps in full colours cannot be supplied.

12. **MAPS FOR THE DEFENCE SERVICES:** The system for obtaining maps for official use by the Defence Services is laid down in Indian Army Order 2338/42.

Direct application to Survey of India Offices must NOT be made.

When the detail on this index is not sufficient to locate the required map of a particular area, identify the sheet number of the India and Adjacent Countries Series map containing the area and turn to the index (scale 1:2,000,000) bearing that number, which indicates the area in greater detail. Identify the sheet required and turn back to this index and check whether published.
